

GLOBAL IMPACT

INTERNATIONAL SERVICE LEARNING IN THE DEVELOPING WORLD

SUMMER 2017

Magical Morocco | Ghana Expedition | Discover Laos | Explore India

Global Impact is the Seattle Colleges students, faculty and staff, partnering with Healthcare professionals, educators and community members, to deliver healthcare and other volunteer service in developing countries. Global Impact volunteers make a real difference in the lives of people in developing countries.

In return, the lives of volunteers are enriched by the simple act of serving others- and learning to see the world from a different perspective. ***This experience is life changing.***

GHANA EXPEDITION

Healthcare, Education and Public Health Infrastructure

Summer 2017: August 20 - September 3

Come to Keta! Keta, a coastal town in the Volta Region, is our location in Ghana this year. This area on the Gulf of Guinea in Western Africa has experienced tremendous impact from erosion – the sea reclaiming land. We will be working with poor, rural communities, conducting health clinic outreach campaigns, teaching health education regarding nutrition and sanitation – and will be involved in a variety of infrastructure initiatives related to public health.

EXPLORE INDIA

Healthcare, Education and Infrastructure

Summer 2017: August 20 - September 3

Join us in India! Our project is based in rural communities surrounding Goa. Global Impact participants will engage in medical/dental clinics in villages alongside Indian healthcare practitioners, provide healthcare education and help to further develop some community infrastructure.

DISCOVER LAOS

Healthcare, Education and Infrastructure

Summer 2017: August 21 - September 1

Our newest project begins in the ancient, UNESCO World Heritage city of Luang Prabang! We will travel to villages in the remote, mountainous countryside where access to healthcare is limited. Our team will deliver healthcare services through village clinics and engage in infrastructure projects designed to positively impact public health.

MAGICAL MOROCCO

Healthcare, Education and Public Health Infrastructure Projects

Summer 2017: August 20 - September 3

Join Global Impact in its new program to Morocco! We will start in the city of Agadir and travel into the countryside to work in the rural village region of Riad Imsouane. During our two weeks, we will volunteer in health clinics, engage in health education and support different health projects including sustainable farming and testing water for potability.
